Content strategist and creative producer with 10+ years building editorial programs, podcast series, and community-driven content at scale. Leads the creative editorial operation behind Store Social at Walmart — writing the content system that briefs 4,800+ store creators and curating their work to Walmart's 32M-follower Facebook page, generating the majority of the company's organic social impressions at zero media spend.

EXPERIENCE

Creative Producer — Walmart (via icreatives) Mar 2022 – Present

- Lead content strategy across 4,800+ Walmart store Facebook pages and the company's 32M-follower national brand page — instructing stores on what to post through a centralized brief system, then surfacing the best of what they create to the national handle. The store fleet feeds the brand page. The brief system feeds the fleet.
- Curate and publish content to Walmart's main Facebook page (32M followers) — sourcing the strongest associate photos from across the store fleet, writing copy, and publishing 3–5 posts per week. 209 posts over 16 months: 60% exceeded 1M organic impressions, top post reached 27.3M. 830K total engagements. Zero media spend.
- Author all UX copy for My Local Social (MLS) — the Priorities, briefs, and ready-to-post Templates that direct 4,800+ store associates on what, when, and why to post. The brief system generated 180,000+ associate posts across FY25–26, driving the majority of Walmart's organic social impressions.
- Monitor the store fleet weekly through Sprinklr to catch organic moments before any brief goes out — when 4,800 stores are already posting something unprompted, that's an editorial signal. Spotted associates posting Stranger Things merch ahead of the season launch with no assignment; surfaced the strongest photos to national before the brief system caught up. That post reached 6.79M impressions.

Social Media Videographer — Walmart (via icreatives) Mar 2021 – Mar 2022

- Produced and edited three associate-led YouTube series — Associate Unboxings, Associate How-To, and Associate FAQ — on micro-budgets (iPhone + ~\$100 per episode) that consistently competed with Walmart's agency-produced content costing tens of thousands per video.
- Piloted Walmart's Associate Live Shopping Streams — selecting the technology, designing the segment format, and producing the first 10 streams from scratch before handing the program off to scale. It's still running.
- Produced internal brand storytelling videos and motion graphics for leadership, translating Store Social's metrics and milestones into executive-level presentations.

Associate Director — Bee Balm Arkansas Aug 2023 – Sep 2024 (concurrent)

- Produced Bee Balm Presents — a debut 20-episode podcast, managing full lifecycle from story development and guest booking through audio editing and distribution. Broadcast on KUAF public radio; built a rights clearance system to secure written

permission for every copyrighted poem aired — no process existed before the show needed one.

- Grew Instagram following from 300 to 1,000+ through consistent short-form content strategy and community programming.
- Designed and led a 28-event annual programming calendar across three formats — Revision Nights, Drafting Nights, and quarterly Open Mics — engaging 400+ writers.
- Built the operational foundation — workflows, team structure, and production systems — that enabled the organization to scale from 3 to 5–6 members upon departure.

Assistant Audio Producer & Editor — University of Arkansas

Apr 2019 – Mar 2021

- Produced and engineered faculty- and research-driven podcasts, managing the full audio pipeline from recording through publishing.
- Applied advanced post-production — EQ, compression, noise reduction — in ProTools and Adobe Audition to broadcast-quality standards.
- Collaborated with faculty to develop show formats, scripts, and episode structures.

Multimedia Production Assistant — Walton College, U of A

Feb 2015 – Apr 2019

- Filmed, edited, and delivered marketing and research video content aligned with university brand guidelines.
- Designed animated assets and motion graphics using After Effects, Illustrator, and Photoshop.
- Built shot lists, storyboards, and visual plans for longform and shortform productions.

Amazon Marketplace Associate — Acumen Brands

Sep 2014 – Jan 2015

- Developed competitive pricing strategies to liquidate slow-moving inventory, generating \$1M+ in revenue on Amazon Marketplace.
